

Tech SPECS

GrateIt[®]
HAND SAFETY TOOL

TIP DESIGN

- Made from strong, corrosion resistant 304 stainless steel
- Multiple tip options to accommodate various grating sizes
- Bolted on tip design enables easy switch out of various tip options
- Custom tips available upon request

HANDLE FEATURES

- Shaft made of strong, corrosion resistant 304 stainless steel
- Ergonomic D Handle for comfortable lifting and carrying

LOCKING MECHANISM

- Sliding fast-action friction-lock mechanism secures tool to grating
- Captures grating between the tip and 3" aluminum wear plate
- Grating will not disengage from the tool until released by the user
- Trigger on tool allows for easy release
