T-HANDLE

rotates 90°

Safe-T-Stik hands off, no touch magnetic load control safety tools enable workers to safely guide and position suspended loads such as road plates, trench plates, shoring, steel plates, large assemblies, large parts, large motors, and other heavy steel objects. Safe-T-Stik magnetic load control tools are versatile and can be attached and removed quickly and easily. With over 500 pounds of magnetic holding power, even the heaviest loads can be maneuvered and positioned with incredible precision and minimal human force. Visit our website for complete tool information.
